

# NOTICE WATER LINE FLUSHING

Please be advised that the Elton Utility Department will be conducting regularly scheduled water line flushing.

**The flushing will begin in Ward 2 between July 19 and August 13, 2021.**

Residents are reminded that in some situations, you may experience low pressure, or discoloration, during the flushing process. If discoloration occurs, we recommend running the water for several minutes to remedy this condition.

If you have any concerns, please call Ralph Berg, Utility Manager at 204-729-6116
